

[START HERE](#)

Spot the pattern.

What you notice usually points straight to the cause.

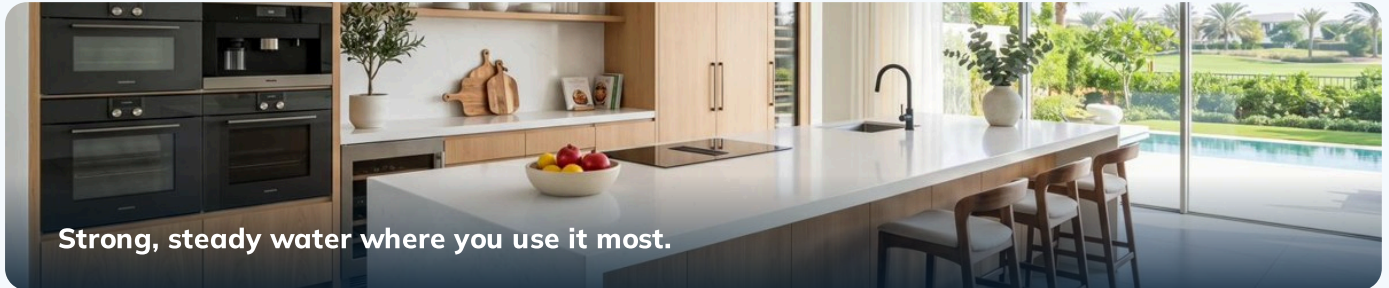

Only one tap is weak	→ Local blockage
Drops when taps run together	→ System cannot keep up
Weak upstairs	→ No pressure boost
Weak everywhere	→ Possible leak or supply issue
Only hot water is weak	→ Water heater problem
Flow stutters or spits	→ Air in pipes

Every problem has a pattern.

The 6 problems explained

What you will notice, what to do, and where SCALA2 genuinely fits.

PROBLEM 1

Blocked outlet

You will notice One tap or shower is weak

Fix Clean the showerhead or tap filter

SCALA2: Not needed

PROBLEM 2

Pipes too small

You will notice Pressure drops when multiple taps run

Fix Boost system capacity

SCALA2: Keeps pressure steady

PROBLEM 3

Hidden leak

You will notice Low pressure everywhere and a rising water bill

Fix Locate and repair the leak

SCALA2: Helps detect sudden drops

PROBLEM 4

Weak hot water only

You will notice Cold water strong, hot water weak

Fix Service the water heater

SCALA2: Stable supply to heater

PROBLEM 5

Air in pipes

You will notice Spitting taps, uneven flow

Fix Bleed the system

SCALA2: Clears air at pump level

PROBLEM 6

One supply for the whole villa

You will notice Weak pressure on upper floors

Fix Install a booster system

SCALA2: Even pressure on all floors

When is a booster the right solution?

A pressure booster like Grundfos SCALA2 is ideal when:

- Pressure drops during peak use
- Multiple taps run at the same time
- Upper floors have poor flow

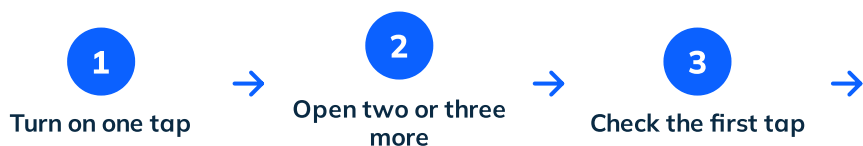

All in one unit: pump, motor, tank, sensor, controller and valve.

Meet SCALA2

One simple way to fix pressure issues at the source.

- Consistent pressure across all taps
- Strong performance even during high demand
- Quiet operation
- All-in-one compact system
- Suitable for villas up to 3 floors and 8 taps

A 2-MINUTE CHECK Does your system keep up?

If pressure drops
You likely need
boosting

Find the cause first.

- If it is a blockage, leak, or heater issue, fix it directly.
- If it is supply or pressure related, SCALA2 delivers a reliable, lasting solution.

Comfort you can count on, every single day.
